Abstract

This thesis, entitled "Evaluation of the Implementation of the Social Security Act B.E. 2533 in Medium - Size Business Enterprises in Muang District, Chiang Mai Province", aims to study the impact of implementation of the Social Security Act B.E. 2533 in Medium - Size Business Enterprises in Muang District, Chiang Mai Province whether it is relevant to the Social Security principle. The study also focuses on differences of the impact of this Act between business enterprises of different number of employees and of different types of business. It also aims to study factors

influencing the impact of the implementation of this Act.

Samples are consisted of 29 business enterprises and of 296 employees. Data are collected through questionnaire. The collected data are processed by the use of SPSS program. Descriptive statistics used in the research are mean and standard deviation. Analytical statistics include analysis of variance and multiple regression at 0.05 level of significance.

The findings are :

1. The impact of the implementation of the Social Security Act B.E. 2533 in the medium - size business enterprises in Muang District, Chiang Mai Province is relevant to the Social Security principle.

2. The implementation of the Social Security Act B.E. 2533 in business enterprises varies according to the number of employees.

3. The implementation of the Social Security Act B.E. 2533 in business enterprises varies according to the types of bussiness.

4. The factor that influences the implementation of this Act is the length of work.

Recommendations are offered for further study : expansion of the scope, reduction of the range of the medium - size business enterprises, and focus on the community where the enterprises are located.
