**ABSTRACT**

The purposes of this research were to evaluate the work performances and problems in crime prevention and suppression of police district stations in Khon Kaen province in four objectives. They were : (1) study the degree of opinions about work performances; (2) problems; (3) priorities of tasks; and (4) compare the degree of opinions about work performance and problems classified by level of police stations.

The samples consisted of 306 policemen working in the crime prevention and suppression division of Khon Kaen police district stations. A set of questionnaires was used as a tool for collecting data. The earned data were statistically analyzed by computer to acquire percentages, means, standard deviation, and t-test.

## The results

The police district stations in Khon Kaen province conducted the crime prevention and suppression in the aspect of narcotics and anaesthetics, community and mass relationship and management of crime data, local data and harming plan in the high level, the aspect of consumer protection in the low level, whereas the rests conducted in the moderate level. The problems in conducting were in the low level totally and partially.

The priorities of tasks in crime prevention and suppression in the upper four ranks were (1) narcotics and anaesthetics (2) fire-arms, war-arms and bombs, (3) vehicle robbery and (4) community and mass relationships

In comparison, the first class of police district stations conducted in the aspects of narcotics and anaesthetics, vehicle robberies and vice, illegal places and brothels more than the second ones where as the second ones conducted in the aspect of woods and natural sources destruction more than the first ones significantly at the .05 level. There were no significantly differences among the rests.

The first class of police district stations had problems in conducting of vice, illegal places and brothels aspect more than the second ones significantly at the .05 level, whereas the rests were no significantly differences.
