

The operation of CPDG Project in recent years emphasized support in terms of animals' feed and health. Less emphasis was put on the improvement of breeds thus, the latter should be stressed in the future. In addition, the purchase and transport of equipment and material should be completed at the beginning of the year so that the officers have sufficient time to carry out their duties. The cattle farmer group should be encouraged to build corrals and squeeze chutes in order to streamline the field work of the officers.
