

Darawan Bouwattana 2007: Result of Transfer on Solid Waste Management to Vocational Student at Daruna Kanchanaburi Business Administration School, Kanchanaburi Province. Master of Science (Environmental Science), Major Field: Environmental Science, College of Environment. Thesis Advisor: Professor Wit Tarnchalanukit, Ph.D. 107 pages.

The objectives of this study were to transfer knowledge of solid waste management to Vocational students at Daruna Kanchanaburi Business Administration School, Kanchanaburi province; to compare the achievement score and to determine opinion of student towards the transfer of solid waste management process.

The total of 28 Vocational students of Daruna Kanchanaburi Business Administration School served as respondent of this study. Purposive sampling technique was employed to select sample. Transfer of solid waste management process consisted of knowledge on solid waste management, games, achievement test and questionnaire. Data were analyzed and presented through percentage, mean, standard deviation and t-test was employed to test hypothesis.

Finding showed that the achievement score of respondent before and after transfer of solid waste management was significantly different at .05 level. The respondent had high level of opinion towards transfer of solid waste management process.
