The purposes of this research were to study the state and problems of operating and to compare the state and problems as perceived by heads of regional office and officers. The questionnaires were distributed to 24 heads of regional office and 24 or 100 percent of questionnaires were returned. Also, questionnaires were sent to 78 officers and 74 or 94.87 percent were returned. The data were then analyzed in terms of percentages, means, and standard deviations. the t-test was applied to determine the significant differences at .05 level.

The result were as follows :

1. Total officers perceived the state of operating of their office in 8 areas : planning, organizing, staff organizing, budgetary, location and material, directing, co-ordinating and reporting at the good level.
2. Total officers perceived the problems of operating of their office at the high level in staff organizing and budgetary area.
3. The heads of regional office and officers perceived the state of operating of their office significantly different at .05 level in planning, organizing, directing, co-ordinating and reporting area.
4. The heads of regional office and officers perceived the problems of operating of their office significantly different at .05 level in planning, organizing and co-ordinating area.
