Abstract

This investigation was aimed to study the existing conditions, problems and needs on boyscout and junoir redcross instructional activities. The subjects were 285 primary school administrators, 351 boyscout instructors, and 320 redcross instructors. The questionnaires wereapplied to collect data. The earned data were analyzed by a computerprogram to compute percentage, arithmetic mean, and standard deviation.

Findings :

Boyscout and junoir redcross instructional activities were cooperatively supported by parents and community. However, there were lacking of budget, instructional media. The significant problems

were the instructors having less experiences and techniques on teaching boyscout and junior redcross, and knowledge on measurement and evaluation. Additionally, there were inadequate numbers of instructors. The needs for budget, techniques of teaching were highly concerned.
