Master of Education (Educational Technology), Major Field: Educational Technology, Department of Educational Technology. Thesis Advisor: Associate Professor Narong Sompong, Ph.D. 102 pages. ISBN 974-16-2322-4

The purposes of this study were to study the status of instructional media utilization, problems of using instructional media and needs for instructional media of the teachers in the schools under office of the private education commission elementary level in Amphoe Phra Nakhon Si Ayutthaya, Changwat Phra Nakhon Si Ayutthaya. The population were administrators principals, and teachers. The samples were 219 administrators and teachers. The data were collected by the questionnaires and analyzed by using percentage and mean.

The result revealed that the instructional media used in the elementary schools under Office of the Private Education Commission Elementary Level in Amphoe Phra Nakhon Si Ayutthaya, Changwat Phra Nakhon Si Ayutthaya were black boards, green boards and the real things, sample things, amplifiers, microphone, experiment, bulletin boards, picture, photograph media. The Most of the instructional media were mostly good condition. The problems of instructional media utilization was the budget which was not enough for purchasing and maintenance of instructional media, so the available instructional media is low quality. The problems were lack of the audio-visual teacher in the school and the teacher wanted instructional media which were real things, sample things, experiment, operator, the source of knowledge, study trip, picture, photograph, model, amplifiers, microphone, hardware, software and CAI Program.
