

Thesis Title	A Curriculum development of Communication Techniques Courses for the Higher Vocational Diploma Level of Rajamangala Institute of Technology
Name	Galayanee Dachpreecha
Concentration	Teaching Thai Language
Department	Curriculum and Instruction
Academic Year	1997

ABSTRACT

The Study aimed to develop teaching material and teacher manual for the course of communication technique, higher vocational diploma level (revision curricular of the 1992), the institute of Rajamangala. Samples used for this quasi - experimental research were the 1st year, higher vocational diploma level, 30 students of the Kulsiri Technology school, all of those who had been studying the course in the 1st semester of the 1998. Research instruments comprised with 1) a teacher manual and course materials 2) an achievement test for the pre/post testing. Arithmetic mean (\bar{X}), standard deviation (S.D.) and the t test were applied.

It is found that the constructed teacher manual and the course materials let the study samples had a higher achievement at the statistical level of .01.
