

ABSTRACT

The Title : An Efficiency of the Training Package on Orientation for the
New Employee of Metropolitan Electricity Authority

Student's Name : Miss Patchareephan Kongsamutr

Degree Sought : Educational Technology

Academic Year : 1998

Advisory Committee :

1. Assoc. Prof. Kaukool Cooparat Chairperson
2. Assoc. Prof. Dr. Weera Thaipanich
3. Assoc. Prof. Dr. Ruji Pusara

The purposes of this research were : 1) to evaluate the efficiency of the constructed training package 2) to compare the learning achievements in training and 3) to compare the attitudes toward training of the new employee of Metropolitan Electricity Authority between training with the training package and training by lectures.

The 60 new employees of Metropolitan Electricity Authority were selected as the samples for the research . The samples were divided into two groups; the experimental group trained with the training package and the controled group trained by lectures.

The results of the study were : 1) the efficiency of the training package was 83.83/82.66 2) the achievements and attitudes toward training experimental group was bester than the another one.
