

ABSTRACT

Thesis Title : A Study of Problems in Sports Science Applications by Sports Scientists in the 13th Asian Games in Thailand

Student's Name : Mr. Nukul Ninwongsanuwat

Degree Sought : Master of Education

Major : Physical Education

Academic Year : 1998

Advisory Committee :

1. Dr. Charnchai Chobthamasakul Chairperson
2. Assoc. Prof. Rattana Hengsawad

This research aimed at studying the problems in sports science applications by sports scientists in the 13th Asian Games in Thailand. The target population consisted 60 sports scientists. Questionnaires were used in collecting data. Sixty copies were distributed, all of which were completed and returned. The analysis was done by SPSS/PC⁺ (Statistical Package for the Social Sciences/Personal Computer Plus) for the percentage, the average and the standard deviation. The results from this study revealed that the problems in sports science applications by sports scientists in the 13th Asian Games in Thailand were at a high level.
