

A summary of the study are as follows:

1) A lot of Vietnamese fled into Thailand in 1945 because of the fear of threat from French authority. In the first period, these Vietnamese displaced persons always had many problems with the Thai government but now the situation is changing in such a way that the Vietnamese displaced persons live peacefully and happily in Thailand

2) The Thai government formulated the policies for Vietnamese displaced persons on the basis of both internal and external factors to set up an appropriate guideline for practice.

3) With respect to Thai Nationality Act and National security policies for the Vietnamese displaced persons, the study has found that they have been considered as appropriated policies. Also, they should be continued to generate an awareness of being Thai people for the purpose of national security.
