The objective of this thesis is to study the role of the southern border provinces administration center in resolving the security problems in southern border provinces with in framework of national security policy for the southern border provinces and to study how the southern border provinces administration center is organized. This thesis uses the analysis in the terms of contents relying on and informations involved and the questionnaires from 50 peoples

Results of the study

1. The southern border provinces administration center , since formed in 1981 is the very important organization for solving the security problem

within the southern border provinces .It is able to ease the conflict caused by cultural differences , to adjust the capability of its officer and to adapt the officer's attitude for better-understanding in native culture such as giving the co-leading role to the native religious leader in taking decisions with the organization .

2. From the field study , found that the southern border provinces administration center has the role in improving and developing capability of the local officer and solving and cultural conflicts .
