CHULABHORN COLLEGE

KWANSHEWA WUNNAPINTU : A STUDY OF STATE AND PROBLEMS OF SCHOOL  
ADMINISTRATION OF PRINCESS CHULABHORN COLLEGE. THESIS ADVISOR :  
ASSIT, PROF. NATANIPA COOPARAT, Ph.D. 336 pp. ISBN 974-638-668-9

The purpose of this research is to study the state and problems of school  
administration of Princess Chulabhorn College.

It is found that Princess Chulabhorn College is a boarding school. It has an  
operational plan and a special project which is a students' ability competition. Moreover,  
a staff development program is set up to provide the teachers with knowledge about how to  
teach each subject group and about techniques for teaching science. As for curriculum,  
Science, Mathematics, English and Computer Science are also taught as electives. At  
upper secondary education level, teaching is a mixed pattern only for the science-  
mathematics program. Teachers are assigned to teach subjects which are in accordance  
with their major/minor subjects and their experience. The teachers teach the subjects  
through experiment and practice. Extra classes and a science camp are provided for  
students. Discipline and behavioral development is also observed. The library opens both  
during and outside office hours. This school is well known for the students' academic  
success. The science building, the physics, chemistry and biology rooms are set up  
separately to promote science learning and teaching. The students are encouraged to use  
science rooms.

The problems that the school faces are a lack of personnel including teachers in  
the science and mathematics department, there is no flexibility in the department of finance  
and the department of supply. In addition, the teachers lack of teaching experience. Some  
of the students do not conform to the school rules. The quantity and quality of water for  
drinking and use are not good. The community around the school do not give co-operation  
to the school and the available study rooms cannot accommodate all of the students.
