ABSTRACT

The purposes of this research were to study expected and actual academic administration of heads of district primary education offices under the jurisdiction of Chaiyaphum Provincial Primary Education office.

The 708 subjects were used as sample which consisted of 258 school principals; 380 teachers, 16 heads of district primary education offices and 54 district supervisors. The instrument used in this study was a set of questionnaires. The earned data were analyzed by programmed computer to acquire percentage, arithmetic means and standard deviation.

Findings :

1. The expected academic administration of heads of district primary education offices under the jurisdiction of Chaiyaphum Provincial Primary Education Offices had overall performed at the "much" level; by which the aspect of other assigned tasks were performed at the maximum level and the aspect of supervision developing, inservice supervision spreading and supporting tasks were performed at the minimum level.
