 HEALTH PROMOTION STUDENT LEADER IN ELEMENTARY SCHOOLS UNDER
 THE JURISDICTION OF THE OFFICE OF THE NATIONAL PRIMARY EDUCATION
 COMMISSION, EDUCATIONAL REGION SEVEN. THESIS ADVISOR : ASST. PROF.
 AIMUTCHA WATTANABURANON ,Ed. D. 186 pp. ISBN 974-636-391-3

The purposes of this research were to study the opinions of school health teachers concerning the problems of operating the project of health promotion student leaders and to study the knowledge, attitudes and practices of health promotion student leaders in elementary schools under the Jurisdiction of the Office of the National Primary Education Commission, Educational Region Seven. The questionnaire developed by the researcher were sent to 360 school health teachers and 360 health promotion student leaders. All the questionnaires were returned and then analyzed in terms of percentages, means and standard deviations.

The findings of this study were as follows :

1. As a whole , the problems of operating the project of health promotion student leaders in elementary schools were at the low level except in the area of budget which was at the high level . the problems of budget were : not understanding how to obtain the budget ,inability to raise fund to support the project , inability to use the budget efficiently, inability to withdraw the budget on time, inability to do debit-credit for the project, not having opportunity to consider the school budget, not receiving enough budget to do the project , not having the budget to train health promotion student leaders as substitutes and inability to use the budget appropriately in each activity.

2. The knowledge of health promotion student leaders was at the moderate level . The attitudes of health promotion student leaders concerning self health care and practice of the project were at the good level and the practices of the health promotion student leaders concerned with operating the project were at the high level.
