

## C743323 : MAJOR NON-FORMAL EDUCATION

KEY WORD : STATE AND PROBLEMS / GROUP FACILITATORS/GENERAL  
NON-FORMAL EDUCATION/ DISTANCE LEARNING TYPE

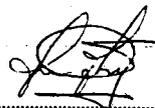

CHANORNART CHEUNCHEY : A STUDY OF STATE AND PROBLEMS IN  
GUIDANCE SERVICE OF THE GROUP FACILITATORS OF GENERAL NON-  
FORMAL EDUCATION, DISTANCE LEARNING TYPE IN NORTH EASTERN  
REGION AS PERCEIVED BY ADMINISTRATORS, GROUP FACILITATORS AND  
LEARNERS : THESIS ADVISOR : PROF.DR. RATTANA POOMPAISAL, DR .TAVEEWAT  
PITAYANON. 180 PP ISBN 974-634-810-8

The purpose of this research was to study the general conditions and level of  
problems including of opinions concerning the guidance services of the group facilitators of  
general non-fornal education, distance learning at lower secondary level. The guidance  
service in this survey, were divided into a self-service survey, and informantion service, a  
consultation service, a personnel positioning service, an a result finding service assessment  
as perceived by administrators, group facilitators and learners. 769 administrators, gropo  
facilitators and learners in the North Eastern region during semesler 1/1996 were selected  
as sample groups. The dala analysis was conducted by finding the average percentage,  
variance, deviation and the est of significant differences between various groups by Scheffes'  
Method. The following conclusions were drawn based on the findings of this research :

1. The opinions of the administrators concerning the general conditions of all the  
guidance services provided by the group facilitators of general non-formal education,  
distant learning were in a moderate level, except a result finding service assessment,  
which was in the minimum level. Regarding the opinions of the group facilitators and  
learners, the general conditions of all the guidance services were in a moderate level. The  
opinions of the administrators, the grupo facilitators and learners concerning the problems  
of all the guidance services provided by the group facilitators of general non-formal  
education distant learning also in a moderate level.

2. The significant differences on the opinions of the administrators, the group  
facilitators and learners concerning the general conditions of the guidance services were at  
0.5 in the result finding services. The personnel positioning service gained the sames  
significant differences of .05
