CAPACITY / SUB-DISTRICT ADMINISTRATION ORGANIZATION
NANTAPORP AUI-AREE : CAPACITY OF SUB-DISTRICT ADMINISTRATION
ORGANIZATION. THESIS ADVISOR : ASSO. PROF. PRAYAD
HONGTONGKUM, 178 pp. ISBN 974-636-767-6.

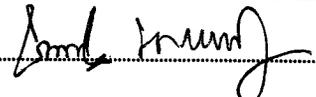

This research is aimed to study the limits of the capacity of administration of Sub-District Administration Organization of Chumporn Province in order to understand problems, difficulties, and limits of each Sub-District Administration Organization in Chumporn. Main factors in this analysis consists of first, personal background and qualification that comprise the committee; second, administrative resources of each Sub-District Administration Organization. The study emphasizes the study of the administrative capacity of forty Sub-District Administration Organizations in Chumporn. The study is undertaken by having resource to documentary, and field research with special emphasis on data-collection from questionnaires.

The result of the research shows that as regards the general background of human factors, most of the committee members are male of 31-40 of age with high-school level of education. The length of time of working-career is 1-2 years. Regarding the personal capacity, the committee members understand their roles, authority, operation-planning, budget administration in accordance to its operation-plan. Their knowledge in operation-evaluation according to the plan is of average. Their capacity in operationalising according to the plan is high. Their decision-making power is high. The committee members regard administrative resources as the factor affecting highly their administrative capacity, that is to say, operation-budget, income, office and equipments effect supports to the effectively administrating of the Sub-District Administration Organization.
