#### ABSTRACT

The purposes of this investigation were to study the existing conditions, problems, and needs for educational supervision performance of the heads of district primary education offices in Udon Thani. The sample was comprised of 730 heads and vice heads of district primary education offices, educational supervisors, primary school administrators and teachers. The questionnaires were applied for data collection. The earned data were analyzed by a computer program. The obtained statistics were percentage, arithmetic mean, and standard deviation.

# Findings :

1) The educational supervision performance was prioritized as follows : project management, coordination, follow-up program, educational service, supervisonal development, and research.

2) The significant problems on educational supervision were lacking of budget and materials, management and personnel problems.

3) The needs for educational supervision were continuity of supervising, proper plan, the survey of teachers'needs, inservice training, and appropriate supervisonal instruments.
