Degree : Thesis for M.A. (Thai Language), 1998.

The purpose of this study is to analyse the behavioral character related to the democracy in the folklores.

97 tales related to the democracy from 120 folktales are chosen for the study.

An analysis is an the behavioral characters by using the democratic life style of 18 kinds as the analytical standard.

It is found that :

1. The democracy of life style appeared most frequently is about the collective responsibility of people and the aspect of intellectual principle.

2. The democracy of life style appeared less frequently is about the aspect of respectful principle which indicates the equality of humanity.
