PATTARAPORN KOBKULCHAI : A COMPARISON OF ATTITUDE TOWARD PHYSICAL EDUCATION BETWEEN STUDENTS IN REGULAR CURRICULUM AND STUDENTS IN THE PROJECT ON PROMOTION AND DEVELOPMENT FOR OUTSTANDING STUDENTS AT UPPER SECONDARY SCHOOL LEVEL. THESIS ADVISOR : ASSO. PROF. PRAPAT LAXANAPHISUTH, Ph.D. 215 pp. ISBN 974-634-883-3

The research aimed at studying and comparing the attitude toward physical education between students in regular curriculum and students in the project on promotion and development for outstanding students at upper secondary school level in central region and in rural region. The samples were 400 regular curriculum students and 360 students in the project on promotion and development for outstanding students. The research instrument was Surasak Supameiteewarakul's Physical Education Attitude Inventory which was modified by the researcher. The collected data were then analyzed in terms of percentages, means, standard deviations and t-test.

The results of the study were as follows:

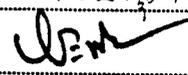

1. The attitude of the students at upper secondary school level in the project on promotion and development for outstanding students were found to be at the "good" level.
2. The attitude toward physical education between students at upper secondary school level in regular curriculum and students in the project on promotion and development for outstanding students were not significantly different at the .05 level.
3. The attitude toward physical education of the students at upper secondary school level in regular curriculum of the project on promotion and development for outstanding students between central region schools and rural region schools were not significantly different at .05 level.
4. The attitude toward physical education of students at upper secondary school level in the project on promotion and development for outstanding students between central region schools and rural region schools were not significantly different at .05 level.
