THE NON-FORMAL GRNERAL EDUCATION CURRICULUM

KANITHA KANGIM : A COMPARISON OF KNOWLEDGE AND ATTITUDE TOWARDS
LEARNING POLITICS AND GOVERNMENT TOPIC AMONG STUDENTS OF DIFFERENT
LEARNING TYPES IN THE NON-FORMAL GENERAL EDUCATION CURRICULUM AT THE
LOWER SECONDARY EDUCATION LEVEL B.E. 2530 IN CHANGWAT TRANG. THESIS
ADVISOR : ASSOC. PROF. DR.SURAKUL JANOBROM, Ed.D., 182 pp. ISBN 974-
634-809-4

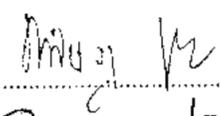

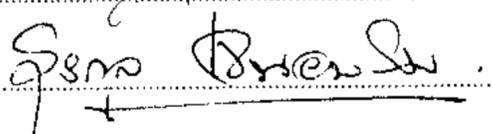

The purpose of the study was to compare knowledge and attitude towards learning
politics and government topic among students of different learning types in the Non-Formal
general education curriculum at the lower secondary education level B.E. 2530 in Changwat
Trang.

The findings of the research were as follow:

1. Knowledge towards learning politics and government topic among students of
distances learning, self-directed learning and classroom learning were different at .05 level. As
for knowledge of students of self-directed learning were higher than those of distances learning
and classroom learning, distances learning were higher than those of classroom learning.

2. Attitude towards learning politics and government topic among students of
distances learning, self-directed learning and classroom learning in goal, content, experience
learning and evaluation were not different at .05 level.
