PREECHA SURIYA : OPINIONS OF SECONDARY SCHOOL STUDENTS IN  
THE DEMONSTRATION SCHOOLS UNDER THE JURISDICTION OF THE MINISTRY  
OF UNIVERSITY AFFAIRS CONCERNING THE INSTRUCTIONAL MANAGEMENT OF  
PHYSICAL EDUCATION. THESIS ADVISOR : ASSO. PROF. PRAPAT LAXANAPHISUTH, Ph.D.  
179pp. ISBN 974-635-677-1

The purposes of this research were to study and to compare opinions of secondary school students in the demonstration schools under the Jurisdiction of the Ministry of University Affairs concerning the instructional management of Physical Education. Samples group used in this research were secondary school students in the demonstration schools under the Jurisdiction of the Ministry of University Affairs in 1996 academic year. The researcher sent 600 questionnaires to the students. Four hundred and seventy six questionnaires or 79.63 percent were returned. The obtained data were analyzed in terms of percentage, means, standard deviations. A t-test was used to determine the significant difference.

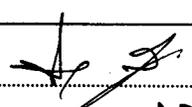

The results were as follows :

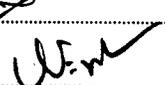

1. Opinions of secondary school students in the demonstration schools under the Jurisdiction of the Ministry of University Affairs concerning the instructional management of Physical Education at the high level in the following aspects. The purposes of the instructional management of Physical Education should concern about the improvement of body, mentality spirit and sociability of the students. Safety of the students in doing activities should be concerned. The measurement and evaluation should be valid. Physical Education teachers should be friendly with students. There should be a suitable place with enough light and enough equipments in good quality for learning. And the school should hold a sports day every year.
2. Opinions of the boys and the girls concerning the instructional management of Physical Education had statistically significant differences at .05 level.
3. Opinions of the junior high school students and the senior high school students concerning the instructional management of Physical Education had statistically significant differences at .05 level.
4. Opinions of the students in Bangkok Metropolis and the students in other provinces concerning the instructional management of Physical Education had statistically nonsignificant differences at .05 level.
