

LIST OF FIGURES

FIGURE	PAGE
3.1 The 3D image of CeO ₂ molecule	8
3.2 Proposed structure of CEAs	11
3.3 Proposed pileup state for CEAs	12
3.4a The state when CEAs were being poured into water	13
3.4b The state 3 s after CEAs were poured into water	13
3.5a The state when W/O emulsion was being poured into water	14
3.5b The state 3 s after W/O emulsion was poured into water	14
3.6a Dispersion state of CEAs in water with weak stirring	14
3.6b The state of W/O emulsion in water with weak stirring	14
4.1 The chemical structure of all surfactants	24
4.2 The schematic procedure of reversed micelle method	26
4.3 The schematic procedure of emulsion liquid membrane	27
4.4 The schematic procedure of colloidal emulsion aphrons	28
4.5 XRD patterns of CeO ₂ prepared by (a) RM, (b) ELM, and (c) CEAs	32
4.6 TEM micrograph of CeO ₂ prepared by (a) RM, (b) ELM, and (c) CEAs	33
4.7 The emulsion droplet size distribution prepared by different methods	34
4.8 Thermo-gravimetric analysis of CeO ₂ prepared by different methods	35

4.9	XRD patterns of CeO ₂ prepared by CEAs using different cerium sources	36
4.10	TEM micrographs of CeO ₂ prepared by CEAs method using different cerium sources (a) NH ₄) ₂ Ce(NO ₃) ₆ , (b) Ce(NO ₃) ₃ ·6H ₂ O, and (c) CeCl ₃ ·7H ₂ O.	37
4.11	XRD patterns of CeO ₂ prepared by CEAs using different surfactants	38
4.12	TEM micrographs of CeO ₂ prepared by CEAs method using different surfactants (a) PE4LE, (b) Brij96V, (c) Brij52, (d) AOT, and (e) CTAB	40
4.13	XRD patterns of CeO ₂ prepared by CEAs method at different calcination temperature	41
4.14	TEM micrograph of CeO ₂ prepared by CEAs method at different calcinations temperature (a) 500°C, (b) 600°C and (c) 800°C	43
4.15	XRD patterns of CeO ₂ prepared by CEAs method at different water content	44
5.1	XRD patterns of synthesized particle prepared by different methods	50
5.2	EDX mapping images of Ni dispersed on CeO ₂ support prepared by different methods (a) Method I, (b) Method II, and (c) Method III	51
5.3	Temperature programmed reduction (TPR) of CeO ₂ and Ni/CeO ₂ prepared by different methods (a) CeO ₂ , (b) Ni/CeO ₂ -I,	52

(c) Ni/CeO₂-II, and (d) Ni/CeO₂-III

A.1	The size distribution of CeO ₂ prepared by different methods	68
A.2	The size distribution of CeO ₂ prepared by different cerium sources	70
A.3	The size distribution of CeO ₂ prepared by different surfactants	72
A.4	The size distribution of CeO ₂ prepared by different calcinations temperature	75
