## C841856 : MAJOR PHYSICAL EDUCATION  
KEY WORD: ATTITUDES TOWARDS / ATTITUDES TOWARDS PHYSICAL EDUCATION

WORA - ANONG YOUNGCHAROEN : ATTITUDES TOWARDS PHYSICAL EDUCATION SUBJECT OF THE UPPER SECONDARY SCHOOL STUDENTS IN REGIONAL AREAS. THESIS ADVISOR : ASSO. PROF. SILPACHAI SUWANTHADA, Ph.D. 140 pp. ISBN 974-636-130-9.

The purposes of this research were to study and to compare attitudes towards Physical Education subject of the upper secondary school students in regional area schools under the Jurisdiction of the General Education Department. Samples were a both boy and girl students of the upper secondary schools in regional areas. One thousand four hundred and forty attitude questionnaires were sent to the students and 1,414 attitude questionnaires, accounted for 98.19 percent were returned. The collected data were analyzed in terms of percentages, means, standard deviations, A t - test and one - way analysis of variance were employed to determine the significant differences.

The results were as follows :

1. In general, the attitudes towards the Physical Education subject of the upper secondary school students in regional areas were at the "very good" level. Specifically, the attitudes of the Mathayom Suksa four and six students were at the "very good" level, whereas, the attitudes of the Mathayom Suksa five students were at the "good" level.
2. There was significant difference among the attitudes towards the Physical Education subject of the upper secondary school students at different class levels at the .05 level. The attitudes of Mathayom Suksa six students were higher than the attitudes of Mathayom Suksa four and five students.
3. There was no significant difference between the attitudes towards the Physical Education subject of boy and girl students at the .05 level.
4. There was significant differences among the attitudes towards the Physical Education subject of the upper secondary school students at different regions at the .05 level. The attitudes of the students in region twelve were higher than the attitudes of students in other regions.
