

C740852 : MAJOR TEACHING SOCIAL STUDIES

KEY WORD : SELF MORAL PRACTICES

ROONGNAPA CHONCHIRDSIN : SELF MORAL PRACTICES AS PERCEIVED BY UPPER SECONDARY SCHOOL STUDENTS, BANGKOK METROPOLIS. ASST. PROF. WALAI PANICH, D.ED 118 pp. ISBN 974-634-858-2

The purposes of this research were to study self moral practices as perceived by upper secondary school students in Bangkok Metropolis and self moral practices as perceived by upper secondary school students with different degrees of activities participation. The questionnaire expressing moral practices constructed by the researcher was sent to 571 upper secondary school students, selected by Multi-stage Random Sampling from eight governmental schools in Bangkok Metropolis. The obtained data were analyzed by arithmetic mean, standard deviation. The findings were as follow :

1. The students' self moral practices were at the high level in four aspects of hospitality, gratefulness, bravery and politeness and students' self moral practices were at the moderate level in the aspects of honesty, discipline and punctuality.

2. Self moral practices of students who participated in activities at the high level and those who did less were at the high level in the aspects of hospitality, gratefulness, bravery. Self moral practices of both groups was at the moderate level in the aspects of discipline and punctuality. In the aspects of honesty and politeness, self moral practices of the students who participated in high degree was at the high level, but self moral practices of those who did less was at the moderate level.
