A present, it can be said that prostitutes earningship offense are committed in the form Organized Crime by having controlled and organized with efficiency in the gang and having network with complex connection too. The leader of the Organized Crime will have more authority within Organized Crime and will not actually commit the crime by himself by only by guiding, planning and giving support to the arrested member of the gang. So the leader of the gang is very important for the stability of the gang.

As the matter of fact prostitutes have network with complex connection within country and international countries by having controlled from Organized Crime. In the study, it was found the Criminal Law, which is the main legal instrument about the committing person, abetter and supportor may not be able to enforce for proving and arresting to the leader of the Organized Crime.

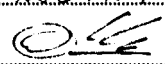

From the reasons whcih has enforce offense with prostitutes earningship by the Organized Crime, the government have to use of conspiracy theory for enforcing prostitutes earningship by the Organized Crime. Because conspiracy theory to being offense in the resulation with agreement of conspirators, although have not to offense with purpose of agreement and conspiracy theory is not also merge to the main offense. So conspiracy theory can efficiently enforce to suppress the Organized Crime and arrest the leader of the gang which prostitutes earningship.
