APINYA BANGMANEENIL : A STUDY OF OPPORTUNITIES FOR INDUSTRIAL  
DEVELOPMENT IN NAKHON RATCHASIMA PROVINCE. THESIS ADVISOR : ASST.  
PROF. NIPAN VICHENNOI, Ph.D. 300 pp. ISBN 974-584-539-6

This research has the objective to study opportunities for industrial development in Nakhon Ratchasima province by studying demographic growth, economic structure changing and factors in industrial development.

It does this by collecting data of natural resource agriculture products and industrial factors and presenting by table\*graph diagram and chart.

The results of this study were that Nakhon Ratchasima province was, the first province in North-Eastern territory for industrial expansion from Bangkok and periphery but the pattern to develop industrial factors should operate in circle and systematically especially in production and industrial landscape to support national policy and private sector investment.
