WICHUDA TAVATALIN, LT.JG. : THE ANALYSIS OF THE TELEVISION  
MILITARY NEWS OF THE ROYAL THAI ARMY TELEVISION CHANNEL 5. :  
THESIS ADVISOR : ASSOC. PROF. JOOMPOL RODCUMDEE. 85 pp. ISBN  
974-582-323-6

This research purpose puts emphasis on the study relevant to the method in presenting the military news, production procedure and content of the television military news on the Royal Thai Army Television Channel 5 on basis of the content analysis from the channel military news tape. Moreover the concept of military news, news, mass media dominating theory, and the state idealistic mechanism is being also applied for this analysis consequently the results of such research are as follows :

From the study, it is found that (1) military news gives more priority to the person than the news content (2) military news is composed of news on military activities, news on military unrelated to their assignments, news on semi-duty of military corps and civilian (3) military ideal found in the news is the ideal on Thai state which comprises ideal on the institution of the nation, religion and king.
