

Title : COOPERATIVE LEARNING ACTIVITIES USED WITH
HOUSEKEEPING 011 (ATTRACTIVE HOMES) FOR
MATHAYOMSUKSA 2 STUDENTS

Author : Miss. Jantima Busayarasamee

Adviser : Dr. Wareerat Kewurai

Type of Work : Thesis (M.Ed. in Curriculum and Instruction), Naresuan University, 2000.

The main purpose of this study is to construct cooperative learning activities used with Housekeeping 011 (Attractive Homes) for Mathayomsuksa 2 Students. The minor purposes of this study are 1) to construct cooperative learning activities for which the standard criterion is 80/80. 2) to compare the learning achievement before and after learning with cooperative learning activities. 3) to study students' opinions on cooperative learning activities.

The sample group is 35 Mathayomsuksa 2 students of Chiang Mai University Demonstration School. The duration is 8 periods (50 minutes for each period)

The research instruments are 1) 4 Cooperative Learning activities Lesson plans. 2) The learning achievement test in the subject of Housekeeping 011. 3) Students' questionnaires ; cooperative learning activities.

The research results are as follows :

1. The cooperative learning activities that was constructed by the researcher achieved an standard criterion of 80/80
2. The post-test scores were statistically higher than the pre-test scores at the .01 level of significance.
3. The students' opinions on cooperative learning activities were at an appropriately higher level.
