

ACKNOWLEDGEMENTS

I wish to express my greatest gratitude and appreciation thanks to Thailand Research Fund (TRF) and the Higher Education Commission for supporting a research grant. A grateful appreciation is also expressed to Prof. Anchalee Tassanakajon for her guidance and invaluable advice. I also specially thank to the Shrimp Molecular Biology and Genomics Laboratory, Department of Biochemistry, Faculty of Science, Chulalongkorn University and Biotechnology Laboratory, Faculty of Agriculture, Ubon Ratchathani University for supporting the facilities.
