ISBN 974-581-908-5

The purpose of this research was to study the effects of the  
ation of School Radio Program in arts on creative thinking of prathom  
three students.

The instruments used in this research were:

1. Torrance Test of Creative Thinking, Figural Form A.
2. 4 School Radio Programs in arts
3. School Radio Teacher's Handbook

Sampling group of the population were students from Fatima School,  
2 classes (100 students) were selected from 5 classes of prathom suksa  
by means of simple random sampling. After pre-test, the samples were  
taught with School Radio Program in arts once a week for 4 weeks. After  
they were examined with the same test.

The result showed that School Radio Program in arts increased student's  
ve thinking statistically at .05.
