

## C143822 : MAJOR NURSING ADMINISTRATION

KEY WORD : SELF CONCEPT /MOTIVE OF WORKING PERFORMANCE / SELF DEVELOPMENT /  
HUMAN RELATIONS ABILITIES

SUDAPORN SAGUANWONG, FLT. LT. : THE RELATIONSHIP BETWEEN PROFESSIONAL  
BACKGROUND, SELF - CONCEPT, MOTIVE OF WORKING PERFORMANCE, SELF  
DEVELOPMENT, AND HUMAN RELATIONS ABILITIES OF PROFESSIONAL NURSES IN  
HOSPITALS UNDER THE JURISDICTION OF THE MINISTRY OF DEFENSE. THESIS  
ADVISOR : ASST.PROF. PRANOM OTHAGANNONT. Ed.D. 195 pp.  
ISBN 974-581-266-8.

The purposes of this research were to study the human relations  
abilities of professional nurses in hospitals under the Jurisdiction of the  
Ministry of Defense, and to search for the variable which would be able to  
predict the human relations ability of professional nurses.

#### The Majors Findings.

1. Professional nurses in Hospital under the Jurisdictions of the  
Ministry of Defense had high level of the human relations abilities.
2. Nursing Experience, self concept, motive of working performance  
and self development were positively related to human relations abilities at  
the .01 significant level, type of ward did not relate to human relations  
abilities at the .05 significant level.
3. Motive of working performance, nursing experience and self concept  
contributed to Effective predictions of human relations abilities. These  
predictors accounted for 36.10 percent at the .05 significant level.

The function derived from the analysis are

$$Y' = 148.7173 + 1.8993SM + 1.3005 EXPE + .4462 SELF$$

(Understandardized Scores)

$$Z' = .5083SM + .1679 EXPE + .1244SELF$$

(Standardized Scores)
