Name **MR.Anurak Tossarat**

Course NDC Class 54

The study, "resolved the shortage of labor in the fishing business. And foreign workers" the study concludes that Any commercial fisheries is a significant part of the country. As well as a center for trade of animals and animal products cause. There is a continuum of industries such as fishing, processing, fishery products. Refrigeration industry. And other industries that require a lot of labor. I can not find workers to Thailand to work. Cause labor shortage continued. All workers working in Thailand, especially in the fishing sector. And continued fishing. They noted that it is heavy dirty and smell a difficult task. Is dangerous. Is to be out there a long time and duration of the course. Employment as a contractor. Or employment during limited hours. Thailand and the workers have the option of looking for work in several ways. Have access to the Internet has caused a shortage of labor. Labor, especially in the lower levels. Entrepreneurs decided to hire a foreign worker to work instead. Because workers do not mind hard work, dirty work. And patient. Which the various operators. Any registered the foreign workers until now. Although the use of foreign workers fleeing the city. Came running Thailand replacement workers to help alleviate the shortage of labor and the employer was reasonable, but the foreign workers often have difficulty in escaping employers of foreign workers. To change out frequently. The movement area. And the introduction of the track to work with. There are also other issues such as the registration process is not easy to contact as many agencies.
