VORATAI MEKSUTE : THE EVALUATION OF MEDIA OF CHILD LABOUR PROJECT OF THE FOUNDATION FOR CHILDREN DEVELOPMENT. THESIS ADVISOR : ASSO. PROF.PATCHANEE CHEYJUNYA, 183 pp. ISBN 974-581-702-3

The main objective of the research is to evaluate the media of Child Labour Project of the Foundation for Children Development : the children's opinion in the printed media and the consequence of the media forum in providing knowledge and attitude on the Child Labour. This research is a field survey designed in the sample size of 261 Prathom-six students from 7 schools in Amphur Saenangkanikom, Ubolratchataneer Province.

It was found that the children, both male and female, expressed their positive opinion towards the printed media in disseminating information on the Child Labour and the presentation by actual event stories in the book called "Child Labour Life" and cartoon in the brochure called "Cautions". But some were hesitated to follow as per instruction in these two media.

After having been publicized by media forum, most respondents became acknowledgable pretty good on the Child Labour, both male and female, in the aspect of Child Labour Law or Self-Assistance.

The children's attitude on the Child Labour, both male and female, was found to be satisfactory and quite good as expected in the objective of the publicization for Child Labour Project of the Foundation for Children Development. However, the children still felt hesitated should they go to work in Bangkok or help themselves when they go to work in Bangkok.

In conclusion, the printed media can attract the attention of the children and the media forum can provide the knowledge and the attitude on the Child Labour as per objective of Child Labour Project of the Foundation for Children Development.
