

VIPADA SURIYASRIWAN : THE DEVELOPMENT OF A COMPUTERIZED STUDENT
REGISTRATION INFORMATION SYSTEM FOR ADMINISTRATION OF FACULTY OF
GRADUATE STUDIES, MAHIDOL UNIVERSITY. THESIS ADVISOR : ASSO.PROF.
DR.PATEEP METHAKUNAVUDHI, Ph.D. 119 PP.

The purpose of this research was to develop and implement of a computerized student registration information system for administration of Faculty of Graduate Studies, Mahidol University. Life cycle approach was selected as a process of development and implementation. System studies analysis and design was done by researcher, dBASE III Plus was used for programming. During a period of one semester for implementation, the researcher observed and interviewed two groups of users, middle administrators and lower officials. They were all satisfied with the operation and official reports daily, weekly and monthly. Further recommendation of this study should emphasize on data security.
