The objective of this research is to study the laws for current insurance business broker in Thailand which are The Life Assurance Act B.E. 2510 (1967), The Insurance Against Loss Act B.E.2510 (1967) and The Civil and Commercial Code, and suitable regulations for current status. Both documentary and field work researching is used for this research which is limited for scope of The Life Assurance Act B.E. 2510 (1967) and The Insurance Against Loss Act B.E. 2510 (1967)

The outcome of the research is insurance broker is the broker as per The Civil and Commercial Code so it makes insurance broker is ruled by The Civil and Commercial Code The Life Assurance Act B.E. 2510 (1967) and The Insurance Against Loss Act B.E. 2510 (1967)

Whereas work of insurance broker is professional, the two acts are the laws to only control insurance business not to make any damages to people, not to develop insurance broker as professional work moreover some parts are obstructive.

However, development of this business in Thailand is not too much, and numbers of insurance brokers are too few, especially almost all of insurance brokers in Thailand are not real professional, to have specific law to control professional insurance broker as done in England or in any other professional fields. The appropriate solution is to modify The Life Assurance Act B.E. 2510 (1967) and The Insurance Against Loss Act B.E. 2510 (1967) to promote and develop standard of insurance broker to be international and professional.
