

ACKNOWLEDGEMENTS

I would like to thank many people whose kind assistance made this study possible.

First, I would like to express my deepest gratitude to Assistant Professor Dr. Bussba Tonthong, my thesis advisor, for her patience, encouragement, great kindness, and valuable advice throughout the writing of this paper.

I am particularly indebted to Mr. Stephen Cannell, for his valuable time and effort in helping me edit my paper and provide me useful overviews.

I am also grateful to all the teachers of the ESP program who enable me to complete my studies.

I would like to thank my friends, especially my classmates in the ESP program for their encouragement and constant support.

Moreover, I wish to thank Mr. Manasak Reuangkrajang for his support, love, care, understanding, and constant encouragement as I endeavored to achieve my goal.

Finally, I am indebted to my beloved parents, whose love and care encouraged me to make this research possible. Their support, patience, and understanding will always be impressed.
