

NIWAT TANGKANCHANASRI : DEVELOPMENT OF CU-WRITER PROGRAM USING
MODULAR DESIGN. THESIS ADVISOR : ASSO. PROF. SOMCHAI TAYANYONG,
358 pp. ISBN 974-578-855-4

The purpose of this thesis is to design and implement CU-WRITER program using module and use with application program. The design based on ease of use and efficiency, it can operate Thai feature by using graphic mode.

This research composes of three portions. The first portion is study and analyse structure of CU-WRITER program. The second portion was to design module of CU-WRITER program. The last portion was the demonstrations using module.

For the design of the module dealt with display of Thai word on the screen and print Thai word on the printer, and also Thai Wordprocessing and wrap Thai word.
