English Reading Knowledgebase

Supporting Teaching and Learning Reading English in Grade Range 4

Introduction

English Reading Knowledgebase

Supporting Teaching and Learning Reading English in Grade Range 4

Introduction

Welcome to the English Reading Knowledgebase for Grade Range 4. This is a web resource of outstanding sites categorized by reading skills and levels. They also correspond to the 2001 Basic Curriculum Standard for Foreign Language.

One aim of this site is to enhance English reading skills for grade range 4 learners. Each part offers level-appropriate exercises that encourage mastery of important skills. Moreover, the learners can practice all three levels of reading: literal comprehension, interpretative comprehension, and critical reading. In addition, many interesting reading topics are presented in Extra Reading part.

The goals of this knowledgebase are as the following:

- to support teachers who want to be professional in English reading
- to promote reading activities to English teachers
- to provide selected resources that can help English reading teachers to reflect on their practice.

I hope you will enjoy using this English Reading Knowledgebase!

English Reading Knowledgebase

Supporting Teaching and Learning Reading English in Grade Range 4

Learner

In this part learners can practice three different levels of reading:

Literal Level

Literal level means the level of comprehension that the students achieve by the use of word clues and graphics clues.

Interpretative Level

Interpretative level involves the application of reasoning ability in order to understand the idea and event or their relationships.

Critical Reading Level

Critical reading involves analytical thinking for a purpose of evaluating what is read.
