

SNIT PUNUK : DECISION MAKING BEHAVIOR OF DIRECTORS OF
PRIMARY EDUCATION. THESIS ADVISOR : ASSO. PROF. NOPPONG EUNJITRADUL
173 PP. ISEN 974-578-817-1

The main objective of this research is to study the director provincial's decision making behavior in administrative task. The main questionnaires were used to collect data of decision making in administrative task and this distributed to 72 directors of the whole counties.

The result of this study is that most of the directors discuss problems with subordinates and around them to take part in making decision on those issues. The other second priority is having discussion with subordinates before making their old decision. That is the director give others the opportunity take part in making decision or fuding comments or it could be called decisionmaking by groups.
