Dear Dr. Kumngern

CDS-2013-0232.R1

Thank you for submitting your revised paper 'A New Versatile Precision Rectifier' to IET Circuits, Devices & Systems. The paper has now been reconsidered by Prof. Ray who is pleased to inform you that the paper has been accepted for publication subject to the comments below being addressed.

Please try to submit your revised manuscript within 30 days. If you are unable to meet this date, please let me know at your earliest convenience. Should the revision take longer than four months, it will be treated as a new paper submission to the journal.

If you have any difficulties submitting your revised manuscript please do not submit it as a new manuscript. Instead please contact me on the above e-mail account attaching the covering letter and the revised paper in word (.doc) or Postscript (.ps) formats. We will then upload your revised paper for you. Please note that we cannot accept .pdf versions for revised papers.

The IET now offers authors a choice of publication options. There is the standard Subscription Access option where authors assign copyright to the publisher; we are now also offering an Open Access option under one of four Creative Commons Licences, with the author retaining copyright for their work. If you choose to publish your paper Open Access please be aware that there is an Article Processing Charge (APC) of \$1,150. Please see our Author Guide for more information: <http://digital-library.theiet.org/journals/author-guide>

Yours sincerely,

Hayley Faulkner

Comments to the Author
The paper may be accepted

Reviewer: 5
Comments to the Author
The following are the comments I would like to make on this revised paper
1.) Based on the previous corrections, If Rin is going to be external, then MR1 and MR2 need not be shown in the circuits as this may confuse the readers.
2.) It looks like the reference name in [34] is not correct.
3.) The author can compare the performance of this work with the previous works.

We would like to inform our authors and referees that, following the merger of The Institution of Electrical Engineers (IEE) and Institution of Incorporated Engineers (IIE) to form the Institution of Engineering and Technology (IET), our Proceedings journals have been re-branded. All other benefits of publishing in our journals, including our worldwide readership and database coverage, remain unchanged.
