

## ACKNOWLEDGEMENTS

I wish to express my sincere appreciation to my advisor, Associate Professor Dr. Sasichai Kangsadalampai and my co-advisors, Associate Professor Panadda Rojpibulstit, Associate Professor Dr. Treetip Ratanavalachai and Assistant Professor Dr. Ratha-Korn Vilaichone for their valuable guidances, timely suggestions and whole-hearted supports. Their continuous interest and great generosity helped my work to be accomplished and also supported me during a course of this study.

Sincere thank is also given to Associate Professor Dr. Songsak Petmitr for his kindness to be a chair of the examination committee and his useful comments. I also thank Assistant Professor Sawanee Tengrunsun for her assistance in statistical analysis. Special appreciation is given to all patients whose gastric biopsies were used in this study and to the surgical team of Thammasat Hospital for their collection of the specimens.

Finally, I would like to thank all of my friends in Department of Preclinical Science and my family for their helps and remarkable supports.
