

ACKNOWLEDGEMENTS

I wish to express my gratitude to my advisor, Asst. Prof. Dr. Araya Chaemchan, who has helped and encouraged me throughout this study. My special thank is offered to Dr. Araya not only taking care of mine in study but also in everything else. Without her brilliant assistance, I may not success with this thesis.

I am grateful to Prof. Dr. Narong Punnim, a thesis advisor, who has given many brilliant ideas to solve mathematical problems. Dr. Narong also gives fruitful comments and suggestion in many topics of this study and on improvement of the thesis.

A sincere thank is offered to Asst. Prof. Saithong Amornwichet, the chairman, Assoc. Prof. Dr. Wanida Hemakul and Asst. Prof. Dr. Varaporn Saenpholphat who are committee members. They have provided many useful suggestions and improvement on this thesis.

I extend my sincere thanks to Mathematics Department's Officer for greatly support all along time. I would like to thank Mrs. Maly Kaewklin for her brilliant guidance and assistances.

I would like to thanks for the devotions from many teachers in the past. Thanks are also offered for my family, father, mother, and sisters for sharing and loving all along. Every thing they have done gives me an inspiration and strength to pass through tough time.

Finally, I thanks my friends for helping through this study. I also would like to thank and acknowledge every supports and I would like to dedicate this work to all people mentioned.
