

## LIST OF FIGURES

FIGURE		PAGE
1	Perilz's Closed Family of All Subset Homogeneity Hypotheses	19
2	Independent Bootstrap Replication	31
3	Dependent Bootstrap Replication	32
4	Closed Principle Chart	55
5	Flow Chart of Empirical Type I Error Rates	60
6	Flow Chart of Empirical Power of the Test	61
7	Empirical Power of the Test of All Procedures, Based on $B = 100$	67
8	Empirical Power of the Test of All Procedures, Based on $B = 1,000$	68
9	Empirical Power of the Test of All Procedures, Based on $B = 10,000$	68
10	Empirical Power of the Test of Step-down Procedures when the Number of Sample Size $r = 3$	70
11	Empirical Power of the Test of Step-down Procedures when the Number of Sample Size $r = 4$	71
12	Empirical Power of the Test of Step-down Procedures when the Number of Sample Size $r = 5$	71
13	Empirical Power of the Test of Step-down Procedures when the Number of Sample Size $r = 6$	72
14	Empirical Power of the Test of Step-down Procedures when the Number of Sample Size $r = 7$	72
15	Empirical Power of the Test of Step-down Procedures when the Number of Sample Size $r = 8$	73
16	Empirical Power of the Test of Step-down Procedures when the Number of Sample Size $r = 9$	73
17	Empirical Power of the Test of Step-down Procedures when the Number of Sample Size $r = 10$	74
