

ACKNOWLEDGEMENTS

I would like to express my sincere appreciation to my major advisor, Dr. Sirikul Manochantr, for providing the excellent guidance and support needs to accomplish this research. She has given me numerous unique opportunities to grow both personally and professionally for which I sincerely grateful. I would like to thank Dr. Pakpoom Kheolamai for his insight and suggestions which have been extremely helpful. Also, I would like to thank Dr. Chairat Tantrawatpan and Assistant Professor Dr. Aungkura Supokawej for their suggestions concerning the techniques for cell culture.

I would like to thank Professor Dr. Surapol Issaragrisil for his enormous contribution to this research and providing me all support needed with encouragement to make significant advances.

I would like to thank Mrs. Yaowalak U-pratya, who advised and taught me all about laboratory works. Moreover, I am very grateful for the assistance of many wonderful people at the Stem Cell Culture Laboratory at the Division of Hematology, Department of Medicine, Faculty of Medicine, Siriraj Hospital, Mahidol University who provided new perspectives and made the laboratory enjoyable working environment.

I would like to thank Professor Dr. Kovit Pattanapanyasat and his team at the Division of Instruments for researchs, Office for Research and Development, Siriraj Hospital, Mahidol University, for the valuable guidance in MLR assay using flow cytometer.

I would like to thank Mr. Supapart Chitjamnongchai at the Transfusion Medicine Department, Siriraj Hospital, Mahidol University, for a valuable help in radiating the cells for MLR assays.

I wish to express my cordial thank to Dr. Pairath Tapanadechopone of Graduate Study, Faculty of Medicine, Thammasat University who was my first advisor for providing me the opportunity to study in the stem cell research.

Finally, I would like to acknowledge to the Thailand Research Fund (Senior Research Scholarship to Professor Dr. Surapol Issaragrisil, grant no RTA 488-0007), Commission on Higher Education (grant No. CHE-RES-RG-49) and also the Faculty of Medicine, Thammasat University (Research scholarship to Dr. Sirikul Manochantr) for financial support of this study.
