

LIST OF FIGURES

FIGURE	PAGE
Literature Review	
Figure 2.1 Potency of stem cells.....	5
Figure 2.2 Source of adult stem cells.....	8
Figure 2.3 Derivations of mesenchymal stem cells.....	11
Figure 2.4 Transmission electron micrograph demonstrated the morphology of mesenchymal stem cells.....	12
Figure 2.5 The scheme of MSC differentiation into the three mesenchymal lineages.....	19
Figure 2.6 The structure of umbilical cord.....	30
Figure 2.7 The structure of Wharton's jelly.....	31
Figure 2.8 The structure of placenta.....	33
Figure 2.9 Bone marrow harvestment.....	37
Figure 2.10 IFN- γ regulates the anatomy of MSC-induced T cell Tolerance.....	45
Methodology	
Figure 3.1 Bone marrow derived mononuclear cells at interphase Layer.....	48
Figure 3.2 Isolation and culture of MSCs from umbilical cord.....	50
Figure 3.3 Isolation and culture of MSCs from Wharton' jelly.....	52
Figure 3.4 Isolation and culture of MSCs from placenta.....	54
Figure 3.5 Isolation and culture of MSCs from amnion.....	56
Finding and Results	
Figure 4.1 The onset of colony formation.....	64
Figure 4.2 Morphology of MSCs-derived from bone marrow.....	65
Figure 4.3 Morphology of MSCs-derived from umbilical cord.....	66

LIST OF FIGURES (continued)

Figure 4.4 Morphology of MSCs-derived from Wharton’s jelly...	67
Figure 4.5 Morphology of MSCs-derived from placenta.....	68
Figure 4.6 Morphology of MSCs-derived from amnion.....	69
Figure 4.7 Growth curves of MSCs derived from bone marrow, umbilical cord, Wharton’s jelly, placenta and amnion...	75
Figure 4.8 Flow cytometric analysis of surface-marker expression on bone marrow derived MSCs.....	77
Figure 4.9 Flow cytometric analysis of surface-marker expression on bone umbilical cord derived MSCs.....	78
Figure 4.10 Flow cytometric analysis of surface-marker expression on Wharton’s jelly derived MSCs.....	79
Figure 4.11 Flow cytometric analysis of surface-marker expression on placenta derived MSCs.....	80
Figure 4.12 Flow cytometric analysis of surface-marker expression on amnion derived MSCs.....	81
Figure 4.13 Percentages of BM-MSCs, UC-MSCs, WJ-MSCs, PL-MSCs and AM-MSCs that were tested for each cell surface antigen expression by flow cytometry.....	86
Figure 4.14 Representative photomicrographs of osteogenic differentiation.....	88
Figure 4.15 Representative photomicrographs of adipogenic differentiation.....	89
Figure 4.16 MLR assays were analyzed by flow cytometer.....	91
Figure 4.17 Mean value of proliferation index of CFSE labeled responder T-lymphocytes co-cultured with irradiated stimulator T-lymphocytes and MSCs from various sources.....	98
