

## List of Tables

Table		Page
2.1	Tumor classification by tissue types .....	19
2.2	Seven warning signs of cancer and eight warning signs .....	20
	of cancer in children	
2.3	Storage conditions of stability testing of active substances .....	39
	and pharmaceutical products	
4.1	Percentage of yield of crude extracts of <i>D. membranacea</i> from .....	59
	different extraction methods	
4.2	<sup>1</sup> H-NMR spectral data and the previous data of dioscorealide B .....	63
4.3	RSD (%) of intra-day repeatability and intermediate precision studies	69
4.4	% Recovery of dioscorealide B in the ethanolic extract .....	69
	of <i>D. membranacea</i>	
4.5	Concentration of dioscorealide B in crude extracts (mg/g) of .....	75
	<i>D. membranacea</i> from different extraction methods	
4.6	Total content of dioscorealide B (µg/g dried plant) in crude extracts ..	76
	of <i>D. membranacea</i> from different extraction methods	
4.7	<i>In vitro</i> cytotoxic activity against MCF-7 by SRB assay of .....	79
	<i>D. membranacea</i> extracts from different extraction methods	
4.8	Percentage of dioscorealide B remaining in the ethanolic extract .....	82
	of <i>D. membranacea</i> in stability test under accelerated condition	
	at 45°C and 75%RH for 4 months	
4.9	Percentage of dioscorealide B remaining in the ethanolic extract .....	83
	of <i>D. membranacea</i> in stability test at 60°C, 70°C and 80°C	
	with 75% for 1 month	
4.10	<i>In vitro</i> cytotoxic activity against MCF-7 by SRB assay .....	85
	of the ethanolic extract of <i>D. membranacea</i> at 10 µg/ml in	
	stability test under accelerated condition at 45°C and 75% RH	
	for 4 months	

**List of Tables (continued)**

<b>Table</b>	<b>Page</b>
4.11 <i>In vitro</i> cytotoxic activity against MCF-7 by SRB assay ..... of the ethanolic extract of <i>D. membranacea</i> at 10 µg/ml in stability test under heat-accelerated conditions at 60°C, 70°C and 80°C with 75% RH for 1 month	86
