

ACKNOWLEDGEMENT

The study would not have been completed without the support and encouragement of many people who had faith in me, believing that I could eventually get through this hard period.

Firstly, I would like to express my gratitude to my family and friends who always understood and gave me an encouragement that stimulated my emotional strength to overcome any difficulties that happened during conducting the research study.

Secondly, I am deeply indebted to my advisor, Ajarn Nutchaya Chalaysap, for her valuable comments and advice that were passed on to me during the whole process of my Independent Study.

I would like to thank K.Siriwon and Ajarn Somsook for their support activities and advice provided all through 2 years in LITU for all students in order to be successful in their studying in MA Careers.

I also would like to thank myself who patiently looked after myself and suppressed the worry arising under a number of circumstances.
