

## ACKNOWLEDGEMENTS

This research could not have been accomplished without the great encouragement, support and facilitation from many people. In particular, my gratitude is expressed to Associate Professor Dr. Ketvalee Porkaew for her expert direction and valuable comments to do such a topic. This has substantially improved my independent study.

My appreciation is also extended to all the instructors and staff at The Language Institute for the knowledge and support they have provided me throughout my two years at Thammasat University.

I also thank all the respondents who kindly gave their valuable time in answering my questions, and my friends and family, who have always supported me, no matter how difficult a time it was.
