

ACKNOWLEDGEMENTS

This research could not have been completed without great assistance and support from many people. First, I would like to express my gratitude to my advisor, Dr. Pattama Sappapan, for her suggestions and continuous encouragement throughout the research. Second, I would like to thank Dr. Supanee Javarak-Apimas very much for giving me helpful guidance in the scope of study and constructing the research instrument.

Finally, my immense gratitude is also extended to all teachers, staff, friends at the Language Institute, Thammasat University, and my family for their support and help.
